

## Manage your security easily

### Video Recorder 400 Series

Professional, affordable video recording and management

**BOSCH**  
Invented for life

Looking for a hassle-free, cost effective video management solution that gives you what you need, in the easiest way possible? For systems of up to four analog cameras, our Video Recorder 400 Series is the one to choose.

Ideal for residences, small retail shops and offices, this simple recorder operates 'straight from the box'. Simply connect the cameras and power, and the unit begins recording automatically.

#### **Built-in convenience**

Operating the Video Recorder 400 Series is simple and very convenient. You can manage your system from any location. Web based remote management puts control at your fingertips. In the event of an alarm, the video manager alerts you instantly by automatically sending an e-mail.

Comprehensive search and playback functions include a 'Smart Search' utility to help you quickly locate recorded events by looking for changes in selected areas.

## Less storage for more video

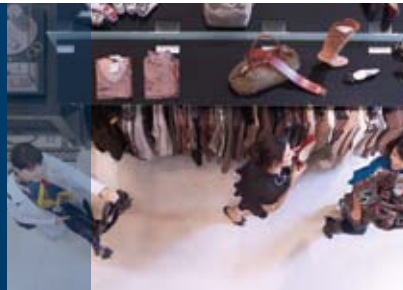

Fitted with the latest H.264 video compression technology, the 400 Series ensures you get plenty of recording time without spending a fortune. Store at least 30 days of video at the highest recording quality.

## Keeps on running

Our Video Recorder 400 Series gives you the quality and reliability you expect from Bosch means you can rely on Bosch to keep on running, minimizing downtime and total cost of ownership.

Features	Benefits
4-Channel real-time advanced H.264 recording	Records at least 30 days of video at the highest quality
CIF, 2CIF or 4CIF resolution for viewing and recording video	Flexible image resolutions to fit your needs
Built-in web viewer for remote viewing, playback, control and management	Convenient control from any location. View live and recorded images over WAN, LAN or Internet
Supports VGA and analog monitor output (up to 1280 x 1024)	Ensures best resolution for optimized viewing on any monitor
Dual streaming for local recording and live network viewing	Independent streams for ultimate flexibility when viewing over networks/Internet
Smart Search	Time saving utility locates events quickly by looking for changes in a selected area
Audio In/Out	See and hear all the details
USB ports and optional DVD writer	Easy export of video to external storage devices
Alarm inputs and outputs	Trigger alarms automatically by using door, window or other contacts, or connect to an audible alarm.
Email alerts	Receive an email alert whenever an alarm is triggered
1 or 4 audio inputs and alarm outputs	Choose the system that best meets your needs

When you need a simple, reliable surveillance solution, let the Video Recorder 400 Series manage your security easily.

Put the performance and benefits of the Video Recorder 400 Series to work for you. Contact your local Bosch representative or call 1-866-CCTV-REP for a product demonstration.
